

**Lighten the house**  
keeping by serving a ready-cooked, ready-to-eat food that contains the maximum of nutriment at low cost, and with the least tax on the digestion. **Shredded Wheat Biscuit** is the real autocrat of the breakfast table—the one cereal food that holds its own against all comers, with increasing sales every year. It is a boon to the busy housewife, a welcome relief to the jaded stomach that has wrestled with meat and other heavy winter foods. Try it for breakfast with milk or cream; for luncheon or dinner with berries or other fruits. Made at Oakland, California.

## PLANS TO GOVERN EXEMPTIONS UNDER SELECTIVE DRAFT

(Republican A. P. Leased Wire)  
WASHINGTON, May 28.—Regulations to govern exemptions under the selective draft are being worked out by Provost Marshal General Crowder with a number of prominent lawyers. Although the plans are not yet complete, it is probable that the jury wheel system will be followed in selecting those who are to go into the first army of 500,000, and not until the names have been drawn and each registration district has provided the number apportioned to it, will exemptions be considered. As each individual drawn reports, his claim for exemption will be passed upon and if he is exempted another will be drawn to fill the vacancy.

The law provides for local exemption boards in each county and for each 30,000 in city populations. Boards of review also will be established on the basis of one or more to each federal judicial district. All the boards will be composed of civilians. Secretary Baker said today the process of selecting them had not been worked out.

General Crowder said that only confusion would result from the reported intention of men above the fixed age to register on June 5.

"This is mistaken patriotism," he said, "and registrars will be instructed to accept cards only from men between the ages of 21 and 30, inclusive. Men over 30 will not be necessary be excluded from the draft because they are married. General Crowder asserted today.

"Only those whose dependents must rely solely on them for support should claim exemption," he said, "and of course all married men between the ages of 21 and 30, inclusive, must register, whether or not they propose to claim exemption."

"The act establishing the selective draft authorizes the president to exempt or discharge from the draft those in a status with respect to persons dependent upon them for support which renders their exclusion or discharge advisable."

"The census estimate shows that almost half the men available for draft are married and any sweeping exclusion of married men would therefore be inadvisable."

Have You Bought YOUR LIBERTY BONDS? It is the obligation of YOUR country! The SAFEST investment in the world. When all else fails it will yet be GOOD. Ask any Bank for particulars.

## WORK FOR ALL IN UNCLE SAM'S PLAN LIBERTY LOAN WEEK

(Republican A. P. Leased Wire)  
WASHINGTON, May 28.—Men, women and children in every walk of life are given places for active service in the program for Liberty loan week beginning next Saturday made public tonight by the treasury department.

Treasury officials also made public tonight an appeal by Samuel Gompers to all members of the American Federation of Labor requesting them to aid the government in making the loan a success.

Liberty bonds are a safe investment and it is a patriotic duty to subscribe for them," said Mr. Gompers. He added that he would like to see every member of the federation subscribe for as large an amount of the bonds as his means would permit and he gave his approval to the plan to make Wednesday, June 6, Liberty Loan Labor day, to be devoted to a "United Front" by organized labor on behalf of the loan.

The Liberty loan week program follows:  
Saturday and Sunday, June 2 and 3—Liberty loan days in the churches. Clergymen will preach special sermons on behalf of the loan.

Monday, June 4—Merchants and manufacturers' liberty loan day, on which the merchants and manufacturers will unite in aiding the sale.

Tuesday, June 5—Professional and insurance men's liberty loan day. Every insurance agent in the country will devote the entire day to soliciting subscriptions to the bonds and professional men also will devote much of their time to the cause.

Wednesday, June 6—Liberty loan labor day and automobilists' liberty loan day.

Thursday, June 7—Farmers' liberty loan day. Members of granges and other farmers' organizations throughout the country will make a concerted effort to secure subscriptions.

Friday, June 8—Women's liberty loan day.

Saturday, June 9—Children's liberty loan day.

William H. Taft, president of the League to Enforce Peace, issued a statement saying:

"The obligation to subscribe rests especially upon the members of the league to enforce peace."

**WILL REGISTER WOMEN, JUNE 5**

(Republican A. P. Leased Wire)  
DENVER, N. M., May 28.—The women's auxiliary of the state defense council met here today and decided to hold a registration of women on June 5, the date of the registration of men under the selective conscription act. A petition was addressed to the governor asking that all idle and idlers be arrested and put to work on the farms.

Business men here today subscribed \$3,000 toward a \$5,000 fund which will be added to the \$3,000 state appropriation to aid farmers in this county to produce during the war period. The money will be used to purchase seed, feed and fuel oil.

**PROMISES JUSTICE FOR ALL MINERS NOW ON STRIKE**  
(Continued from Page One)

time the deputies were armed with rifles. Hereafter they merely carried revolvers under their coats. A crowd over one thousand strong and others who were merely looking for excitement, filed by the governor's hotel.

Many threats were yelled at the deputies but in the face of those rifles no concerted move was made against them.

Soon after the deputies turned their charges loose at their homes, the strikers attacked a Mexican who they said made a move toward his revolver. They took the weapon from him and carried him to the city jail, where officers locked him up. This was done when word was spread that two working miners, armed, had been chased out along the hill toward Hull Canyon, one mile southwest of the town.

The crowd stampeded in that direction when W. A. Burns, member of the executive committee of the international union, leaped upon a pile of bricks overlooking the main stretch of the crowd, before the governor, who was watching from a window across the way.

"We are not only going to win this strike, but we are going to win it by peaceful means," Burns declared.

Burns tried to get the strikers to assemble in Union hall. In this he was unsuccessful, but his plea had the immediate effect of checking the "scab hunt."

"All the scabs in town will be killed," was frequently heard among the crowd.

Burns and H. S. McCluskey hurried to the governor and requested that he do something to calm the crowd. Soon the governor appeared and spoke from the town bandstand. His remarks were punctuated by wild cheering. Governor Campbell deplored the fact that he returned for the first time since he became governor and found the present turbulent conditions prevailing in his home town. He drew attention to the fact that he had operated mines here and that he never had labor trouble. He promised to be just as much a friend to the miner now as then and to remain till the strike was settled so satisfactorily that it would never occur again. He begged for co-operation of all in preserving law and order, saying that this would greatly aid in arriving at an early settlement.

Judge McBride followed and had the crowd with him from the start. He said he had been a union man 45 years, but would not promise to favor the union side in the present controversy. He made a written statement of facts from both the miners and the operators, to make his own investigations and report to Washington. He would use all possible effort to see that exact justice was done. He implored the strikers to preserve order themselves, and not allow anyone else to start disorder.

He spoke from long experience, say-

## FREEDOM OF ARMENIA, HEJAZ AND PALESTINE, NEUTRALIZATION OF DARDANELLES, ARE THE DEMANDS ALLIES MAKE OF TURKEY

Map showing extent of Turkish empire. (1) on map marks Dardanelles; (2) Armenia; (3) Kingdom of Hejaz; (4) Palestine.

WASHINGTON, May 28.—(Special)—It is reported on high diplomatic authority that the United States will sanction the minimum terms of the entente allies to Turkey, which are:

- 1.—Disarmament of the fortifications of the Dardanelles, together with their neutralization, and freedom to the commerce of all nations.
- 2.—Disarmament of Armenia from Turkey, through a creation of an independent state, or through annexation by Russia.
- 3.—Recognition of the independence of the new kingdom of El Hejaz, composed of Arabians.
- 4.—Creation of an independent Palestine.

Restoration of the extra-territorial rights of citizens of Christian nations in Turkey.

Under the Mohammedan law it is regarded as impossible the Christian nations should surrender their citizens to Turkish jurisdiction, which would deny to them common justice and rights recognized in every civilized country. Therefore the entente powers, and it is believed the United States also, will insist upon the complete restoration of their extra-territorial rights in Turkey.

Protest of the United States. When the Constantinople government proclaimed its abjournment of the capitulations, the United States would not admit Turkey had the right to do without the consent of this country, and when Turkey refused exequations to American consular officers which would have recognized the capitulations, this country accepted the new form of exequatur under protest, reserving the right to treat further upon the matter.

For the peace of the Mediterranean and of Russia it has been deemed necessary to free the Dardanelles to trading ships of all nations and to require the disarmament of the Strait. Under this arrangement Constantinople would remain in the hands of Turkey, and the southern portion of the peninsula simplified by Russia's declaration that she does not include the possession of that city among her war aims.

It has been regarded by the entente governments as a world demand that Armenia, where the worst atrocities of the war have been committed, shall not remain in possession of Turkey. It is understood that the entente powers as a world demand that Armenia, where the worst atrocities of the war have been committed, shall not remain in possession of Turkey. It is understood that the entente powers as a world demand that Armenia, where the worst atrocities of the war have been committed, shall not remain in possession of Turkey.

The entente nations have already recognized the independence of the kingdom of the Hejaz, and it is thought certain the same reasons guiding the allies' policy concerning Arabia and its Holy city will influence the course of the United States. For several decades Turkey has employed agitators in the Holy cities, as well as throughout Arabia, to carry forward propaganda directed against the interests of Christianity.

If a settlement is made it must involve some vital reduction in the cost of living.

The strikers passed a resolution following the action of the council in notifying women and children to remain away from the business section. Parading tonight, they carried a banner, saying: "The union will protect the women and children; it did so before the strike and will do so now."

Several shots were fired today from the direction of men going to work at the United Verde mine, after stones were thrown at them by men in a crowd of strike sympathizers. The shots went wild. All the workers were dismissed when they reached the mine.

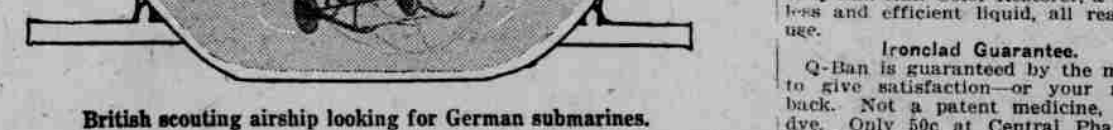

The others were arrested today and last night, some charged with carrying concealed weapons and others with inciting disorder. Union leaders made street speeches today urging good order.

C. R. Dominguez, chief officer of the Liga Protectora Latina, a Mexican educational lodge which has opposed the strike, was attacked on the street today, according to witnesses, and kicked and beaten. He was placed in jail for safety.

The city council today prohibited women and children from being on the streets in the business district of Jerome.

Of Short Duration  
DENVER, May 28.—A prediction that

**LOOKING FOR GERMAN SUBMARINES**

British scouting airship looking for German submarines.

Scouting airships were first introduced by the British navy, and have been found to be very useful in tracking submarines, which can be seen when under water in clear, calm weather. A dirigible can itself attack a submarine by dropping bombs upon it. Provided as it is with wireless apparatus, a scouting airship, on sighting a submarine, at once communicates with the patrol boats.

an imminent shortage of raw materials and with bankruptcy.

Not only have the prices of products not met the advance in wages, but payment has been so slow that industry is in urgent need of working capital. As a result some of the factories, according to this information, will be compelled to close within a month.

An ironical feature of the difficulties confronting the employers is the fact that, although suffering serious loss, they do not dare to close the establishments, owing to threats of bodily and material vengeance. The power of the workers' committees so far has superseded the authority of the owners. No man in a factory can be dismissed without the consent of the committees. There is no way of enforcing discipline, said one manufacturer, and idleness is prevalent.

President Kutler of the Union of Trade and Industry at a recent conference of the council of ministers, said that in 18 metal establishments in the Donets, with a capitalization of 195,000,000 rubles and annual profits of 75,000,000 rubles the workers had demanded an increase of 240,000,000 rubles. The owners agreed to 64,000,000, but the

workmen refused to accept this. In some of the works, according to the statement of a representative of the union, the owners decided to cede all the profits to the workmen. But even this did not meet their demands.

The demands in the southern Russian factories amount to 800,000,000 rubles. If these demands are met, iron and coal would have to rise to unheard-of prices.

## How to Make the Back Yard Profitable—Keep Chickens

**Why Not Keep Chickens? It's Lots of Fun, And a Little Want Ad Will Find Regular Buyers for the Eggs!**

Just think how convenient and what a lot of pleasure it must be to get your eggs fresh and to have an occasional chicken from your own flock. The expense of chickens is almost nothing and the pleasure you get from keeping them is great. Besides, if you work it right, there is lots of "pin money" in it. A little Want Ad inserted in this paper will get you into immediate touch with people who will start you off. Another little Want Ad will find families who will buy your eggs regularly. But perhaps you are a dealer in chickens, eggs and the like. A little Want Ad will carry your message to thousands of homes and produce for you steady customers. It is a good scheme to keep our little Want Ads working for you week in and week out. The cost is trivial. It is a money-making investment to—

(Suggestions for You to Adopt)  
WANTED—Twelve or fifteen barrel Flourish Rock hens—good layers. Will pay top price for fancy stock. Write, quoting prices, to call Address.

WANTED—Families desiring to have strictly fresh eggs delivered regularly straight from one of the finest poultry farms in this section. We will also supply the finest dressed chickens to order at the lowest market prices. Address:
